### NEW NEBOSH HSE Introduction to Incident Investigation

I am pleased to announce that we now offer the NEBOSH HSE Introduction to Incident Investigation course online and via classroom training!

This course is designed to enable students to carry out solo accident investigations, produce risk control plans and contribute to team accident/incident investigations for large-scale investigations. It is aimed at managers, supervisors, SHE champions, union representatives and aspiring health and safety practitioners.

For more information on the course or to make any enquiries, please visit:

### New-Look NEBOSH Certificate Question Papers

#### Important Information for Certificate Candidates

As of this June, NEBOSH will be launching new-look exam papers for all Certificate courses. The new-look papers will no longer have two separate sections; instead, questions will come under one section and they can be answered in any order. The length of time to complete the exam will not change, nor will the number of questions in the exam paper; and the questions will be written in a simpler, 'plain-English' style.

Please note that there are no technical changes that would impact on your upcoming exams - they are in place simply to provide more flexibility in answering the questions so that you can choose the best question to start the exam.

For further information and to access samples for each unit, please visit [Resources](#) section of the NEBOSH website.
